**SKI TRIPS IN THE
AUSTRIAN ALPS**

3-5 Days

office@places-faces.com

Experience an unforgettable ski trip in the Austrian Alps, designed for three to five days full of activity, fun, and shared experiences. Together you will spend time in a stunning mountain setting and enjoy a varied program both on and off the slopes.

A key part of the trip is a professionally guided ski course that will help you improve your skills and take your skiing to the next level. Whether you are a beginner or more advanced, experienced instructors will support you individually to ensure real progress and greater confidence on the snow.

Throughout the entire trip, the kids are accompanied by experienced coordinators who ensure a safe and well-organized experience at all times. From the outbound and return journey to the daily program on site and the time spent skiing on the slopes, the coordinators are present to provide supervision, guidance, and support.

In addition to skiing, a range of group activities is planned. These include time on the slopes together, relaxed walks through the winter landscape, and discovering local alpine cuisine in traditional mountain huts and restaurants. The result is the perfect combination of sport, relaxation, and shared moments in a unique environment.
