

Immerse yourself in a New World

Student Exchange

What's ahead:

Welcome to Places & Faces! We are delighted to share unique cultural exchange experiences with students from around the world. This information sheet provides an overview of the activities, experiences, and learning opportunities that make up our journeys across the Americas, Europe, and Asia, as well as the overall structure of our programs. ✈️

Who can participate?

Our exchange programs are open to young people between 12 and 18 years of age who are interested in discovering new cultures, improving their language skills, and building international friendships.

Participants come from different countries and backgrounds, united by their curiosity, openness, and willingness to experience life from a new perspective.

Your journey can take place at any time of the year, depending on the destination, availability, and individual preferences. Whether you are interested in traveling abroad or hosting an international student, we are happy to help you find the option that best suits your needs. For more detailed information or specific inquiries, please contact us at office@places-faces.com.

Become a host family

Families can also participate by welcoming an international student into their home. Hosting offers a unique opportunity to experience cultural exchange without traveling and allows the entire family to learn about another country, language, and way of life.

The caretakers

Throughout the entire program regardless of the country participants are in they are supported by an experienced team of coordinators who are available at all times to assist students families and schools and ensure a safe and well organized exchange experience. Julian and Daniel are part of the core leadership team and serve as main organizers of the program. They oversee all processes and work closely with a wider network of caretakers and local coordinators so that participants are always supported throughout their journey.

Daniel

Julián

Where?

During your stay you will attend a reputable partner school in the host country where you will spend part of your program time. The classes take place in an international learning environment tailored to the participants, with a strong focus on language development and cultural exchange. There are no grades, as the main goal is to gain new experiences, meet people, and actively engage with the host country.

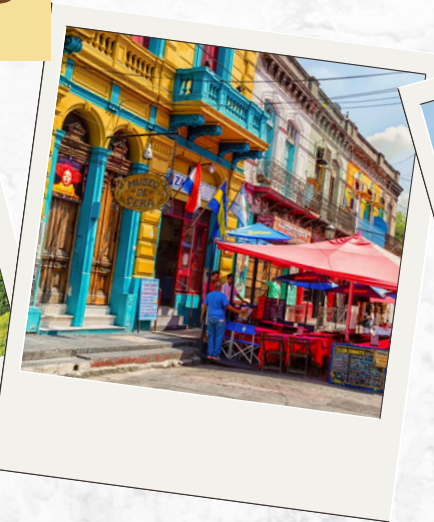

What?

In addition to the school experience, various excursions are organized to the most important sights and highlights of the region. These trips allow you to discover cultural landmarks, natural attractions, and everyday life in the host country. Weekends and free time are used to travel together, explore new places, and experience the country beyond the classroom. Some trips may also include overnight stays, giving you the chance to fully immerse yourself in the surroundings.
